

60Ah Home Distribution Box Dimensions and Specifications

Article Overview

A typical 60Ah home distribution or battery box measures approximately 242 x 175 x 190 mm and supports 12V systems with 60Ah capacity.

Physical Dimensions

For 60Ah batteries commonly used in home distribution setups:

- Varta Blue Dynamic EFB N60: 242 mm (length) x 175 mm (width) x 190 mm (height) for a 12V, 60Ah battery with 640A cold cranking capacity (EN) .
- Solite AGM60: 242 mm x 174 mm x 189 mm, 12V, 60Ah, 640A (EN) .
- Dakota Lithium Powerbox 60: Enclosure designed for 12V, 60Ah lithium battery, ruggedized waterproof case (IP67), slightly larger to accommodate inverter, ports, and protective casing . These dimensions provide a practical reference for designing or selecting a home distribution box that can house a 60Ah battery safely.

Electrical Specifications

- Voltage: 12V nominal for standard lead-acid or lithium batteries.
- Capacity: 60Ah (ampere-hours), suitable for small home energy storage, backup power, or solar integration.
- Cold Cranking Amps (CCA): 640–1,000A depending on battery type, important for engine starting or high-load applications .
- Deep Cycle Capability: Lithium variants like Dakota Lithium support repeated dee...
