

Affordable communication fiber optic cables

Article Overview

You can purchase discounted fiber optic cables in bulk or pre-terminated assemblies for communication networks from suppliers like CableWholesale, Discount Fiber, and Comms Express.

Bulk and Discounted Options

CableWholesale offers a variety of fiber optic cables at wholesale prices, including singlemode duplex and multimode cables. Singlemode cables are ideal for long-distance communication, while multimode cables are suitable for shorter distances. Bulk purchases allow significant cost savings, and the store also provides connectors, converters, and other essential accessories for network installations. Discount Fiber specializes in pre-terminated and custom “made-to-order” fiber optic cable assemblies, including patch cords, fan-out pigtails, and jumpers. They offer discounts on bulk fiber optic cables and assemblies, often beating competitor prices by 25%-50%. Their products are suitable for telecom, data centers, LANs, security systems, and central office installations. Comms Express provides factory-terminated optical fiber solutions, which reduce installation time by up to 75% compared to traditional cabling. They offer multicore fiber cables in OM1, OM2, OM3, OM4, and singlemode sizes, including tight buffered, loose tube, and armored options. Free delivery is often available for online orders.
