

Armenia Long-Span Cable Tray Prices

Article Overview

Long-span cable trays in Armenia typically range from \$2 to \$25 per meter, depending on material, type, and finish.

Price Overview

The cost of cable trays in Armenia varies widely based on material, design, and surface treatment. Common materials include galvanized steel, stainless steel, aluminum, and plastic, each affecting durability and price. Ladder-type trays, which are suitable for heavy cables, are generally more expensive, while wire mesh or perforated trays are more budget-friendly. Bulk orders or project-based purchases can reduce the per-meter cost significantly.

Factors Affecting Prices

- **Material:** Galvanized steel balances cost and durability; stainless steel resists corrosion but is pricier; aluminum is lightweight and rust-proof; plastic is cheapest but not suitable for heavy loads.
- **Surface Finish:** Hot-dip galvanizing (HDG) increases longevity outdoors but costs more; powder coating adds protection and color options; pre-galvanized trays are cheaper but less durable in corrosive environments.
- **Tray Type:** Ladder trays hold heavy cables and cost more; perforated or wire mesh trays are lighter and more affordable.
- **Length and Span:** Long-span trays may require additional support or thicker materials, slightly increasing cost compared to standard spans.
- **Labor and Shipping:** Installation complexity, skilled labor, and transportation costs...
