

Bulgarian Explosion-proof Distribution Box

Article Overview

Bulgarian explosion-proof distribution boxes are specialized electrical enclosures designed to safely house electrical components in hazardous environments, meeting international safety standards.

Overview

Bulgarian manufacturers, such as ATRA Ltd, produce a wide range of explosion-proof electrical installation products, including distribution boxes, switchboards, and control panels suitable for industrial, construction, and commercial applications . These boxes are engineered to prevent ignition of flammable gases or dust in hazardous areas, ensuring operational safety.

Key Features

- **Flameproof Enclosures:** Many boxes use stainless steel or other robust materials with flameproof joints to prevent sparks from escaping .
- **Modular Design:** Boxes can be combined or installed flexibly to save space and accommodate various distribution systems .
- **Component Compatibility:** They support a wide range of electrical components, including MCBs, MCCBs, contactors, relays, meters, PLCs, and surge protectors .
- **Specialized Hinges:** Designed to prevent damage to flameproof joints during opening and closing, extending service life .
- **Customizable Options:** Users can request specific configurations, hole sizes, or ad...
