

Cable tray cutting tools

Article Overview

For precise, safe, and efficient cable tray cutting, options include circular saws, band saws, angle grinders, profile shears, and specialized bench-mounted cutters.

Handheld and Cordless Saws

- MILWAUKEE® M18 FUEL™ 57mm Circular Saw: Lightweight, ergonomic, and equipped with REDLINK PLUS™ intelligence for overload protection. Offers tool-free depth adjustment and onboard storage, ideal for metal cable trays .
- Hilti SCM 22-A Circular Saw: Cordless, precise, and equipped with a chip collector and blade brake for safety. LED illumination ensures accurate cutting lines in any environment .
- Hilti SB 4-A22 Band Saw: Suitable for low-height, thin metal products like cable ladders and trays, providing low noise and minimal debris .

Angle Grinders

- Useful for flexible cutting in tight spaces, but require careful handling due to sparks and higher risk of injury. Always use both hands and protective gear when operating .

Profile Shears

- DRACO Profile Metal Shear: Cuts up to 2.0 mm sheet steel without sparks, deformation, or burrs. Ideal for folded or coated cable trays, ladders, and support channels. Single-side trimming and serrated knives are available for coated materials .
