

Cable trays for Nordic industrial plants

Article Overview

Nordic industrial plants can utilize a wide range of cable trays, including wire trays, ladder trays, and custom solutions in stainless steel, galvanized steel, aluminum, and composite materials, designed for durability, flexibility, and efficient installation.

Types of Cable Trays

Wire Mesh Trays: Lightweight and flexible, ideal for complex routing and easy modifications. Nordic Wire Tray offers wire trays that can be cut, bent, and adapted to project-specific layouts, with minimal fasteners required for installation, making them suitable for fast-paced industrial environments . **Ladder and Solid Bottom Trays:** Meka provides galvanized and acid-proof steel cable ladders and trays, including KS80 models for high load capacities and wide spans, suitable for pulp, paper, wood, and food industries, as well as outdoor installations . Øglænd System also offers ladder trays for heavier cable support . **Custom and Modular Solutions:** PFLITSCH and Øglænd System provide modular cable routing systems with ready-to-install assemblies, edge protection, and integrated equipotential bonding, ensuring safe, transparent, and space-efficient cable management . Eurostrut offers industrial and marine-grade trays, including NATO-type models for specialized applications .

Materials and Durability

- **Stainless Steel:** Corrosion-resistant, ideal for harsh Nordic climates and chemical exposure .
- **Galvanized Steel:** Cost-effective and durable for indoor and outdoor industrial use .
- **Aluminum:** Lightweight and resistant to corrosion, suitable for flexible installations...
