

Compatible QSFP28 High-Speed Optical Connector Supplier in Paraguay

Article Overview

Global suppliers like TE Connectivity, Molex, QSFPTEK, Amphenol, and Cisco offer QSFP28 high-speed optical connectors that can be sourced for Paraguay through distributors or direct sales.

Recommended Suppliers

1. TE Connectivity TE Connectivity provides a broad portfolio of QSFP connectors, including QSFP28, QSFP56, and QSFP112G, supporting data rates up to 400 Gbps. Their products feature high signal integrity, thermal management, and flexible design options suitable for data centers and HPC applications (TE Connectivity) . TE often works with regional distributors who can facilitate delivery to Paraguay. 2. Molex Molex offers QSFP28 connectors and interconnect systems with low insertion loss, EMI containment, and thermal management options. Their QSFP28 solutions support 28G NRZ, 56G PAM-4, and 112G PAM-4, making them suitable for high-speed networking and server farm deployments (Molex) . Molex has a global distribution network that can provide access in South America. 3. QSFPTEK QSFPTEK specializes in high-density optical transceivers and active optical cables, including QSFP28 and QSFP56 modules. They provide solutions for AI clusters, HPC, and DWDM networks, offering flexible deployment options and high reliability (QSFPTEK) . QSFPTEK can ship internationally and may support Paraguayan customers through direct sales. 4. Amphenol Amphenol's QSFP28 Active Optical Cables (AOCs) are designed for 100G high-density signal transmission with fiber lengths up to 100 meters. These assemblies are cost-efficient, power-efficient, and ideal for data centers and HPC en...
