

Complete List of 400 Cable Tray Specifications and Models

Article Overview

400 mm cable trays are versatile solutions available in wire mesh, ladder, and channel types, supporting heavy or multiple cable bundles with various materials and finishes.

Key Specifications

- Width: 400 mm, suitable for multiple large cable bundles and high-density installations .
- Height: Varies by model; typically designed to accommodate standard cable diameters and allow airflow.
- Load Capacity: Ranges from light-duty (few cables) to heavy-duty (thick or numerous cables), depending on material and design .
- Materials: Steel (strongest), aluminum (lightweight), fiberglass (corrosion-resistant) for different environmental and structural needs .
- Surface Finish: Hot-dip galvanizing, powder coating, or plating to protect against rust and wear, suitable for indoor and outdoor use .

Types of 400 mm Cable Trays

- Wire Mesh Cable Trays
- Basket-shaped, open design for easy cable installation and modification.
- Lightweight, ideal for overhead or vertical spaces.
- Commonly used in data centers and office environments .
- Example: Cablofil Electro Zinc Steel Wire Tray 400 mm x 105 mm x 3 m (Legrand)...
