

Cost of supplying pigtail fiber optic cable

Article Overview

Fiber optic pigtail cables typically cost between \$1 and \$10 per piece, depending on fiber type, strand count, and connector type.

Price Range

- Single-mode pigtails: Usually range from \$1 to \$5 per piece for standard LC, SC, or ST connectors .
- Multi-mode pigtails (OM1, OM3, OM4): Typically cost \$2 to \$10 per piece, with higher prices for OM3/OM4 or higher strand counts .
- Custom or pre-terminated pigtails: Prices can increase if you require specific lengths, special connectors, or factory-tested assemblies, sometimes exceeding \$10 per piece .

Factors Affecting Cost

- Fiber Type: Single-mode fibers are generally less expensive than multi-mode fibers, but multi-mode OM3/OM4 variants are more costly due to higher performance specifications .
- Connector Type: LC, SC, ST, and E2000 connectors vary in price, with LC and SC being the most common and cost-effective .
- Strand Count: Pigtails with more fiber strands (e.g., 12-strand vs 1-strand) cost more due to additional materials and manufacturing complexity .
- Customization: Custom lengths, special coatings, or factory testing increase the price .
- Purchase Volume: Bulk purchases can reduce the per-unit cost, while single-piece retail purchases are typically at the higher end of the range
