

DS300 Fiber Optic Switch

Article Overview

The Dell Connectrix DS-300B is an entry-level, high-performance SAN switch with 8 Gb/s SFP support, Ports-on-Demand scalability, and simplified deployment features.

Overview

The DS-300B is designed to provide a cost-effective and flexible foundation for entry-level Storage Area Networks (SANs) and can also function as an edge switch in core-to-edge SAN environments . It allows organizations to start small and expand their storage networks without disruption, supporting growth through Ports-on-Demand (PoD) scalability .

Key Features

- High-Performance SFPs: Supports 8 Gb/s Small Form-Factor Pluggables (SFPs) to meet modern application and performance demands .
- EZSwitchSetup Wizard: Simplifies deployment and configuration, making it easier for IT teams to integrate the switch into existing environments .
- Flexible Architecture: Can operate in standard switch mode or Brocade Access Gateway mode, enabling N_Port ID Virtualization (NPIV) for seamless server connectivity .
- Non-Disruptive Expansion: Organizations can add ports or upgrade performance without interrupting existing SAN operations .
- Energy Efficiency: Designed to consume minimal power per port while maintaining high throughput
