

Data Center Integrated Desktop Cable Management System from Zambia

Article Overview

Zambia offers multiple providers and solutions for integrated desktop and data center cable management, including both hardware and software options.

Local Providers and Services

VIZTRANIX in Lusaka provides end-to-end IT solutions, including enterprise technology deployment, servers, SAN, and network architecture design, which can support integrated cable management in data centers. They offer comprehensive IT services, ensuring proper installation and maintenance of cabling systems. LTS Group specializes in turnkey ICT projects, including data center surveys, network equipment installation, power systems, and monitoring system rooms. Their services include integrated solutions for cable management, ensuring organized and secure cabling infrastructure. Optimum Computer Solutions Zambia offers a wide range of network infrastructure products, including Ethernet cables, cabinets, faceplates, RJ45 modules, back boxes, and cable management tools. They also provide installation and ongoing support, making them a reliable option for desktop and data center cable management. Corporate IT Solutions provides network deployment and design services, along with hardware and software supplies for structured cabling and IT infrastructure management. They focus on quality equipment with full manufacturer warranties, suitable for enterprise-level cable management.
