

# Dimensions of Saudi Arabian Home Electrical Distribution Boxes

## Article Overview

Electrical distribution boxes in Saudi Arabia come in a variety of standard sizes, typically ranging from compact wall-mounted units to large floor-standing modular enclosures, with dimensions tailored to residential, commercial, and industrial applications.

### Standard Wall-Mounted and Floor-Standing Enclosures

Electrical distribution boxes are available in wall-mounted and floor-standing configurations. Wall-mounted boxes are designed for minimal space occupation, while floor-standing enclosures allow for larger, high-performance panel configurations. Typical dimensions for these enclosures vary depending on the number of circuits and components:

- Wall-mounted enclosures: Common heights range from 300 mm to 1200 mm, widths from 200 mm to 600 mm, and depths from 100 mm to 400 mm.
- Floor-standing modular cabinets: Heights can range from 1200 mm to 2200 mm, widths from 600 mm to 1200 mm, and depths from 400 mm to 800 mm.

### Meterboxes and Residential Distribution Boxes

For residential applications, meterboxes with steel enclosures are widely used. These are designed for outdoor installation and must withstand high temperatures and direct solar radiation. Typical dimensions for single or double meterboxes include:...
