

Dimensions of an empty maintenance distribution box

Article Overview

A typical empty maintenance distribution box measures approximately 340 mm (H) × 560 mm (W) × 350 mm (D) and weighs around 7.3 kg.

Standard Dimensions

One commonly referenced model, the PCE Merz M-SVE 4 empty distribution box, has the following dimensions: Height: 340 mm, Width: 560 mm, Depth: 350 mm, with a weight of approximately 7.3 kg . These dimensions are suitable for building a custom distribution setup with sockets up to 63 A and connector plugs up to 32 A, all protected by the housing frame .

Material and Protection

Empty distribution boxes are typically made from plastic or aluminium, with lids made of polycarbonate for durability and visibility. Many models are rated IP65, providing protection against dust and water ingress, making them suitable for both indoor and protected outdoor installations . Some boxes are certified for chemical resistance, such as ammonia, which is relevant for industrial environments .

Variations

Distribution boxes come in a range of sizes depending on the number of ways (1-way to 36-ways) and amperage capacity. Smaller residential boxes may be more compa...
