

Distribution Box Housing Equipment Manufacturer

Article Overview

Leading manufacturers of distribution box housing equipment include Wieland, LAPP, JEAN MÜLLER, and Weidmüller, offering modular, customizable, and certified enclosures for industrial, commercial, and smart building applications.

Key Manufacturers and Offerings

Wieland Electric provides distribution boxes for decentralized electrical installation, suitable for energy, signal, and data distribution in buildings and industrial plants. Their solutions support pluggable installation, smart building integration, and compliance with IEC 61439 and IEC 61535 standards, ensuring flexibility and energy efficiency in harsh environments. LAPP offers a wide range of housings and cabinets made of plastic, aluminium, and stainless steel. Their products include wall-mounted and floor-standing enclosures with high protection ratings (up to IP69/IK10). LAPP provides over 5,000 standard enclosures, customizable with membrane keypads, overlays, and internal configurations for electronics installation. JEAN MÜLLER manufactures enclosures and distribution boards, including service entrance boxes, small distribution pillars, and low-voltage distribution cabinets. Their products can be supplied empty or fully equipped, meeting DIN EN 61439/DIN 43629 standards. They emphasize sturdy construction, in-house components, and compliance with distribution network operator requirements. Weidmüller specializes in modular enclosure systems for power and signal distribution. Their FieldPower® product family combines busbar trunking and standard cables for flexible, pluggable connections. They offer solutions for standard and hazardous (EX) zones, supportin...
