

East African Distribution Box Size Standards and Prices

Article Overview

Distribution boxes in East Africa are standardized by type, material, and number of ways, with prices ranging from approximately \$7 to \$30 USD depending on size and features.

Standard Sizes and Types

Distribution boxes, also known as distribution boards or consumer units, are designed to safely distribute electrical power into subsidiary circuits. Common standards in East Africa include:

- **Material:** Most boxes are made from high-quality ABS plastic for durability and safety, with some metal options for industrial use .
- **IP Ratings:** Boxes often have IP65 or IP67 ratings, providing protection against dust and water ingress, suitable for indoor and outdoor installations .
- **Number of Ways (Circuits):** Standard configurations include 4-way, 6-way, 7-way, 10-way, 12-way, 16-way, 22-way, and 34-way boards, allowing flexibility for residential, commercial, and industrial setups .
- **Voltage Range:** Typically designed for 220–415V, compatible with East African electrical systems .
- **Special Features:** Some boxes are weather-resistant, have modular designs, and include circuit breakers for each circuit .
