

Egyptian Fireproof Cable Tray Raw Material Manufacturers

Article Overview

Leading Egyptian manufacturers of fireproof cable trays include El Safa, Rovana Trade, PI Manufacturing Solutions, and EIG, offering products in steel, galvanized steel, stainless steel, and aluminum.

Key Manufacturers and Their Materials

El Safa Company is one of Egypt's pioneering cable tray manufacturers, producing solid and perforated cable trays, cable ladders, and accessories. They specialize in metal cutting and forming, providing high-quality solutions suitable for industrial and commercial applications. Rovana Trade, established in 2019, focuses on durable cable trays and ladders, offering Hot Dip Galvanized and Electrostatic Painted solutions. Their products comply with ISO 9001 standards, ensuring reliability and fire resistance for electrical and industrial projects. PI Manufacturing Solutions, founded in 2023, manufactures cable trays, trunks, and ladders, along with IT racks and electrical panels. They emphasize high-quality finishes that resist harsh environmental conditions, including dust, water, and corrosion, making them suitable for fireproof applications. EIG provides a wide range of cable trays made from cold-rolled steel (DC01), electro-galvanized steel, austenitic stainless steels (SS 304, SS 316), and aluminum (1050). These materials are selected for their strength, corrosion resistance, and suitability for fireproof installations.
