

Eight-Point Light Wheel Transformation Device

Article Overview

The Eight-Point Light Wheel is a handheld LED spinning disc that creates a dynamic, glowing energy effect for cosplay, photography, and entertainment purposes.

Overview and Design

The Eight-Point Light Wheel is a handheld prop featuring eight curved blades that spin rapidly to form a continuous halo of light, simulating a futuristic energy shield or glowing vortex . It measures 11.02 inches (28 cm) in diameter, providing a balance between visual impact and ease of handling. The device is designed for users aged 14 and above, with an ergonomic central grip for comfortable spinning during dynamic movements .

Lighting and Rotation Features

- **LED Technology:** Equipped with RGB LEDs, the wheel can display customizable colors and dynamic lighting patterns .
- **Light Modes:** Three selectable gears—steady, slow flash, and rapid pulse—allow for varied visual effects .
- **360° Rotation:** The smooth center bearing enables high-speed manual spinning, creating a mesmerizing optical illusion of a glowing energy wheel .
- **Power Source:** USB rechargeable with a built-in battery, providing hours of continuous illumination without the need for disposable batteries
