

Fiber Optic Communication Service Company

Article Overview

Leading fiber optic communication companies in NYC include Pilot Fiber, Lightpath, Stealth Communications, and Streamline Telecom, offering enterprise-grade connectivity, high-speed internet, and specialized fiber services.

Key Companies and Services

Pilot Fiber specializes in modern fiber infrastructure across New York City and New Jersey, providing enterprise-grade fiber with fast installation times, often connecting buildings in as few as five days. They maintain over 300 miles of fiber and focus on enhancing building value and tenant satisfaction . Lightpath operates one of the densest fiber networks in the New York metro area, with more than four times the fiber route miles of competitors. Their services include high-performance internet, wavelengths, dark fiber, SD-WAN, data center connectivity, and cloud connectivity. Lightpath offers extensive routing options, low latency, and connections to critical data centers throughout Manhattan and New Jersey . Stealth Communications has been providing ultrafast Gigabit Internet to NYC businesses since 1995. They construct and maintain their own fiber network, using WDM technology to allocate dedicated wavelengths for each customer, supporting speeds up to 7.5 Gbps. Stealth focuses on direct installation and maintenance, often using existing underground conduits to minimize construction . Streamline Telecom offers professional fiber-optic installation, testing, and maintenance services. They provide Fiber to the Premises (FTTP) and Fiber to the Building (FTTB) solutions, using both mechanical and fusion splicing techniques. Streamline emphasizes proper installation, testing, and minima...
