

H3C Industrial Switch Applications

Overview

H3C industrial switches can operate in -40°C - 75°C environments for a long time, and use industrial components to reach IP40 rating. At the same time, with shockproof, anti-electromagnetic interference, and anti-lightning features, they can be used in a variety of scenarios. Based on the industry-leading 400 G platform, H3C S12500R supports a maximum 48-port 400 G forwarding performance in a single slot. For intelligent ultra-wideband cloud data center, full-scenario data center products and. H3C Industrial Ethernet 4300 series switches are H3C's latest industrial Ethernet switches designed for rugged environment and wide operating temperature. H3C IE4300 series industrial switches adhere to industrial grade hardware design and adopts highly reliable industrial grade components, while. After over 20 years of networking innovation, research and development, H3C has accumulated significant industry-leading Ethernet-related intellectual property and numerous patents. With a range spanning ten series and hundreds of switches, H3C's options can cover your networking needs - from the. H3C has made many contributions to the networking industry in the form of its advanced switches, such as H3C S5850 series switches, H3C S12500 Series Data Center Switches, H3C ASA5580 40 10GE k9, and more. This model is purpose-built for sectors such as public transport, traffic management, and smart buildings, where network.
