

Handheld Light Source Calibration in Tunisia

Article Overview

Handheld light source calibration in Tunisia can be performed at ISO/IEC 17025-accredited laboratories in Tunis, offering traceable and certified calibration services.

Accredited Calibration Labs in Tunisia

Tunisia has 23 TUNAC-accredited ISO/IEC 17025 calibration laboratories where you can calibrate handheld light sources and other measurement instruments . The National Metrology Institute of Tunisia (INMET) has upgraded its primary measurement standards, ensuring high accuracy and traceability for all calibration services . These labs serve industries including manufacturing, healthcare, research, and renewable energy, providing reliable and internationally recognized calibration certificates .

Services for Handheld Light Sources

Accredited labs in Tunisia, such as those in Tunis, offer calibration services that include:

- Illuminance and lux meter calibration for handheld devices, ensuring accurate light measurements .
- Traceability to international standards, including ISO/IEC 17025 and NIST, guaranteeing that your measurements are globally recognized ...
