

High-performance cable trays in Western Europe

Article Overview

For reliable cable management in Western Europe, top recommended cable trays include Eurostrut, Niedax Group, DKC Europe, and Eurotray systems, offering durable, flexible, and corrosion-resistant solutions for industrial and commercial installations.

Leading Cable Tray Suppliers

Eurostrut provides hot-dip galvanized or stainless steel cable trays suitable for indoor and outdoor use. Their trays feature open or perforated designs to reduce overheating, allow clear cable routing, and support fast installation with flexible widths and heights, including NATO-type and marine applications .

Niedax Group offers a wide range of steel, aluminum, PVC, and GRP cable support systems. They specialize in ceiling, wall, and floor installations, providing technical consulting, planning, and assembly services. Their GRP systems are particularly suitable for corrosive environments, while their steel and aluminum trays are ideal for heavy-duty industrial applications .

DKC Europe supplies comprehensive cable tray systems for civil and industrial infrastructures, including energy protection, transport, and distribution solutions. Their products are designed for both standard and complex installations, ensuring compliance with European standards .

Eurotray focuses on heavy-load cable management systems, including ladders and...
