

Hot aisle and cold aisle fixture manufacturers

Article Overview

Leading manufacturers of hot and cold aisle containment systems include EDP Europe, Tate, Vertiv, Eaton, and Faztek, offering modular, scalable, and customizable solutions for data center cooling efficiency.

Key Manufacturers and Their Offerings

EDP Europe designs, manufactures, and installs bespoke hot and cold aisle containment systems suitable for retrofit, new build, and hyper-scale projects. Their solutions include floor-standing or ceiling-suspended systems, high-quality sliding doors, and scalable modular designs that accommodate varying rack heights and future expansion. EDP emphasizes preventing hot and cold air mixing to improve energy efficiency and server reliability, with global support across the UK, Europe, and the USA . Tate provides modular containment solutions, including hard roofs, doors, and custom partitions. Their systems are designed to improve cooling efficiency, reduce energy loss, and can be tailored to specific data center layouts . Vertiv offers adaptable aisle containment systems that can be deployed before or after rack installation. Their solutions are free-standing, rack-independent, and compatible with existing fire suppression systems. Vertiv emphasizes rapid deployment and flexibility for evolving data center needs . Eaton supplies partial and total containment solutions, including ceilings, walls, and end-of-row doors. Their systems integrate with various fire suppression setups and are designed to reduce air recirculation, improve cold air delivery, and lower operating costs. Eaton's containment solutions are compatible with both their own and third-party enclosure...
