

How many gigabytes is the aggregation switch

Overview

The Aggregation Switch has a 160 Gb/s switching capacity with a 119.04 Mpps forwarding rate, features steel construction with a fanless design, and can be rack mounted using the included kit. With features such as Static Routing, DHCP Server, ACL, IGMP Snooping, STP, LAG, and centralized cloud management, they offer a robust and reliable solution for the aggregation layer of SMB networks. Select models. This compact managed Layer 2 switch offers eight 10G SFP+ ports and supports high-bandwidth links, making it ideal for aggregation switching to any UniFi device that deploys various interconnect topologies. 8 Tbps high-density 100G/25G Layer 3 Etherlighting™ aggregation switch with MC-LAG support for high availability system design.

U S W-A ggregation

8) 10G SFP+ ports. The Switch Aggregation is a fully managed, Layer 2 switch with (8) 10G SFP+ ports designed to enhance your network's switching capacity and performance by creating high-bandwidth.

MS400 Series Aggregation Switches

The Cisco Meraki MS400 Series brings powerful cloud-managed switching to the aggregation layer. This range of 1 and 10Gbps fiber aggregation switches adopts the benefits of the cloud: simplified ...

Cisco Catalyst 4500-X Series Fixed 10 Gigabit Ethernet Aggregation ...

Cisco Catalyst 4500-X Series Switch provides nonblocking 10 Gigabit Ethernet per port bandwidth and Cisco IOS Flexible NetFlow for optimized application visibility.

Ubiquiti UniFi Switch Aggregation | Managed Layer 2 Switch ...

The Aggregation Switch has a 160 Gb/s switching capacity with a 119.04 Mpps forwarding rate, features steel construction with a fanless design, and can be rack mounted using the included kit.

Ubiquiti USW-AGGREGATION 8-Port Aggregation Layer 2 Switch

The Aggregation Switch has a 160 Gb/s switching capacity with a 119.04 Mpps forwarding rate, features steel construction with a fanless design, and can be rack mounted using the included kit.

Ubiquiti UniFi 8-Port 10G SFP+ Managed Aggregation Switch

The Aggregation Switch has a 160 Gb/s switching capacity with a 119.04 Mpps forwarding rate, features steel construction with a fanless design, and can be rack mounted using the included kit. Its front ...

UniFi Enterprise Campus Aggregation

1.8 Tbps high-density 100G/25G Layer 3 Etherlighting™ aggregation switch with MC-LAG support for high availability system design.

Ubiquiti USW-AGGREGATION 8-Port Aggregation ...

The Aggregation Switch has a 160 Gb/s switching capacity with a 119.04 Mpps forwarding rate, features steel construction with a fanless design, and can be rack ...

Aggregation | TP-Link

Equipped with all-fiber ports, Aggregation Series Switches deliver up to 25 Gbps. With features such as Static Routing, DHCP Server, ACL, IGMP Snooping, STP, LAG, and centralized cloud management, ...

MS450 Overview and Specifications

The MS450 aggregation switch features twelve 40G fiber ports (QSFP+) and two 100G (QSFP28) fiber uplink ports. The switch is designed to meet the needs of high bandwidth, multi-gigabit switching and ...

Ubiquiti UniFi Pro Aggregation Switch

Ubiquiti USW-PRO-AGGREGATION is a powerful Layer-3 switch that has been specifically developed for the aggregation of high-speed connections in corporate networks. 32 SFP ports in total, including ...
