

How much does 20 meters of Huijue single-mode fiber cost

Article Overview

The estimated cost for 20 meters of Huijue single-mode fiber ranges from approximately \$2 to \$10, depending on cable type and supplier.

Price Estimation

Single-mode fiber optic cables typically cost \$0.10 to \$0.50 per foot for standard indoor cables, or \$0.05 to \$1.50 per meter depending on construction, environmental rating, and strand count . Converting to 20 meters (approximately 65.6 feet):

- Low-end estimate: 20 meters $\times$ \$0.05/m $\approx$ \$1.00
- High-end estimate: 20 meters $\times$ \$0.50/m $\approx$ \$10.00 Retail prices for pre-terminated or armored single-mode fiber can be higher, ranging from \$2 to \$7 per foot for bulk cables . Therefore, for 20 meters, the cost could realistically fall between \$4 and \$14 if additional features or protective jackets are included.

Factors Affecting Cost

- Cable Construction: Armored or plenum-rated cables cost more than standard indoor PVC cables .
- Fiber Type: Single-mode fiber is generally cheaper per meter than multimode fiber, but long-distance or outdoor-rated OS2 cables may increase the price .
- Supplier and Region: Prices vary by supplier; for example, some Indian suppliers list single-mode fiber starting at ₹4-₹4.92 per meter, which is roughly \$0.05-\$0.06 per meter
