

How much does a South Sudanese mesh cable tray manufacturer quote

Article Overview

Mesh cable trays in South Sudan typically range from \$2 to \$25 per meter, depending on material, type, and order quantity.

Price Range and Factors

The cost of wire mesh cable trays depends on several key factors:

- **Material:** Steel is the most common and cost-effective, while stainless steel and aluminum are more expensive due to corrosion resistance and lightweight properties. Fiberglass trays are used in specialized environments and are pricier .
- **Type and Size:** Wire mesh trays are generally cheaper than ladder or solid-bottom trays. Larger or custom-sized trays increase the price .
- **Coating and Finish:** Hot-dip galvanizing (HDG) or powder coating improves durability but adds to the cost .
- **Order Quantity:** Bulk orders can reduce the per-meter price by 20-40%, making large-scale procurement more economical .
- **Labor and Shipping:** Local labor costs, installation complexity, and transportation in South Sudan can influence the final quotation .

Estimated Pricing

- Steel wire mesh trays: \$2-\$10 per meter for standard sizes.
- Aluminum trays: \$20-\$50 per meter, depending on thickness and finish....
