

How much does fiberglass cable tray cost in Malta

Article Overview

Fiberglass (FRP) cable trays in Malta typically cost between \$10 and \$50 per meter, depending on specifications and installation requirements.

Fiberglass cable trays, also known as FRP trays, are valued for their lightweight, non-conductive, flame-retardant, and corrosion-resistant properties, making them ideal for harsh or industrial environments. The price per meter varies based on tray size, design (ladder or solid bottom), and environmental factors such as exposure to moisture, chemicals, or high temperatures.

Price Range

- Basic FRP trays: Around \$10 per meter for standard sizes and simple installations.
- Mid-range trays: \$20–\$35 per meter for larger or more robust designs suitable for industrial or commercial use.
- High-specification trays: Up to \$50 per meter for heavy-duty, flame-retardant, or chemically resistant trays designed for aggressive environments.

Factors Affecting Cost

- Tray Type: Ladder trays are generally more expensive than solid-bottom trays due to material and manufacturing complexity.
- Size and Load Capacity: Wider or thicker trays that support heavier cable loads cost more.
- Installation Complexity: High ceilings, difficult access, or complex routing can increase costs.
