

How to adjust the slope of the cable tray

Overview

In the Cable Tray Layout Preferences dialog box on the Routing tab, under Cable Tray Layout Rise/Run, click Angle or Fraction. For Rise/Run, enter the desired value, depending on the format selected. Note: The Rise/Run value is used as the default in the Add Cable Trays dialog. Is it possible to align the cable tray with a sloping framing or ceilings in Revit?

If the cable tray is moved instead of being sloping when using the align option, edit the Start or End Elevation of the cable tray to make it sloping. Use the align option to adjust the cable tray exactly with the. Slope is applied to cable tray in the Z direction of the current coordinate system in the drawing (typically the vertical direction for a building plan). SVG diagram for on-site marking. What is the Cable Tray Slope & Fabrication Calculator?

The Cable Tray Slope & Fabrication Calculator is a field-ready tool for electrical construction workers who need to quickly calculate. Our Cable Tray Design Considerations Guide details key factors to consider when designing cable tray systems for industrial and commercial applications.
