

How to move and install a distribution box and its price

Article Overview

Relocating and installing a distribution box typically costs between \$1,500 and \$3,500, depending on panel type, distance, labor, and permits.

Cost Breakdown

1. Distribution Box Purchase: The price of a distribution box varies based on specifications such as voltage rating, amperage, number of circuits, material, and safety features. Standard residential panels range from basic single-phase units to more complex three-phase systems, with commercial or industrial boxes costing more due to higher capacity and durability requirements . 2. Relocation Labor and Installation: Relocating a distribution box generally costs \$1,500 to \$3,500, with the average around \$2,000. Fuse boxes are less complex and cheaper to move, while breaker boxes require more labor. Labor hours typically range from 6 to 18 hours depending on the complexity of the relocation, wall type, and distance . 3. Additional Costs:

- Drywall repair and painting: \$300–\$950 if walls are affected during relocation .
- Permits: Required in most areas, with fees varying by municipality; electricians usually handle these .
- Upgrades: If the panel requires a higher amperage, new breakers, or smart meters, costs can increase. Outdoor installations or weatherproof enclosures also add to the price .
- 4. Factors Affecting Total Cost:
 - Distance of relocation: Moving the box within the same room is cheaper than relo...
