

IP65 distribution box specifications

Article Overview

An IP65 distribution box is a dustproof and waterproof enclosure designed for outdoor and industrial electrical installations, available in multiple sizes and materials with DIN rail compatibility.

Protection Rating

- IP65 rating ensures complete protection against dust ingress (level 6) and protection against water jets from any direction (level 5), making it suitable for outdoor and harsh environments .
- Compliant with IEC 60529 standards for ingress protection .

Material and Construction

- Common materials include ABS or polycarbonate (PC) plastics, which are halogen-free, UV-stabilized, and resistant to mechanical stress .
- Transparent windows are often made of tinted polycarbonate with UV protection for monitoring internal components without opening the box .
- Lightweight yet durable, suitable for wall-mounting or surface installation.

Size and Module Capacity

- Available in 4-way to 54-way configurations, with options for single, double, or triple layers depending on the model .
- Supports DIN rail mounting (TH35x7.5 mm) for modular breakers, relays, and terminals
