

Installation price of waterproof electrical distribution box for water tank

Article Overview

The total cost for a waterproof electrical distribution box, including installation, typically ranges from \$200 to \$1,500 depending on size, IP rating, and labor requirements.

Distribution Box Cost

Waterproof distribution boxes designed for outdoor or industrial use, such as IP65–IP68 rated enclosures, are available in various sizes and configurations. Compact models (AT Series) are suitable for simple wiring, while larger models (HT Series) provide more internal space and DIN rail options for multiple circuits. Standard IP65 plastic boxes, like the EKDB10 series, are made of durable PC plastic and can accommodate 4–39 ways with single, double, or triple layers, suitable for industrial, commercial, or photovoltaic applications. Prices for these enclosures generally start around \$50–\$200 for small residential units and can exceed \$500 for larger, multi-layered or custom configurations.

Installation Costs

Installation costs depend on factors such as amperage, wiring complexity, outdoor location, and labor rates. For a typical outdoor panel upgrade or installation, including new breakers and weatherproof enclosure, labor and materials can range from \$300 to \$1,000 for mid-range setups. High-end installations with complex routing, surge protection, or larger amperage panels may reach \$1,500 or more. Labor hours usu...
