

Instructional pricing for installing a home electrical distribution box

Article Overview

The typical cost to install a residential electrical distribution box ranges from \$600 to \$3,400, depending on amperage, location, and installation complexity.

Cost Overview

For a standard 100-125 amp indoor panel, the total cost including the panel, breakers, wiring, labor, and permits usually falls between \$600 and \$1,500 for most residential projects, with labor being the most variable component . A 200 amp upgrade or outdoor installation can range from \$1,900 to \$3,400, and more complex setups with new meter sockets, smart meters, or extended wiring runs can reach \$4,500-\$6,000 .

Factors Affecting Price

- **Amperage Rating:** Higher amperage panels (200A vs 100A) require larger breakers, heavier wiring, and sometimes a new service disconnect, increasing costs .
- **Panel Location:** Outdoor or hard-to-access locations may require weatherproof enclosures and additional labor, raising the price .
- **Labor and Permits:** Electrician rates typically range from \$75-\$120 per hour, with total labor hours between 6-18 depending on project scope. Permit fees vary by region and can add 5-15% to the total cost .
- **Wiring and Conduit:** Longer runs, rerouting, or replacement of old wiring can increase material and labor costs .
- **Additional Features:** Smart monitoring, surge protection, or arc-fault breakers add...
