

Kenya Fiber Optic Connector Testing Organization

Article Overview

Kenya has several professional organizations and service providers offering fiber optic connector testing, certification, and training, aligned with national and international standards.

Key Fiber Optic Testing Organizations in Kenya

1. Liscom Systems Ltd – Based in Nairobi, Liscom provides full integrated fiber optic solutions, including network design, installation, testing, and commissioning for FTTH, FTTB, LAN, WAN, and long-haul networks. They offer equipment testing and maintenance services for all fiber optic deployments .
2. Genie Telecom – Offers complete fiber optic services, including cable placement, fusion and mechanical splicing, end-to-end testing, optical return loss (ORL) measurement, power meter/laser source testing, WDM testing, and connectorization/polishing .
3. Decimeg Co Ltd – Specializes in fiber termination, OTDR and power meter testing, visual fault location, and end-to-end diagnostics. They provide both aerial and underground fiber installation and maintain compliance with international standards .
4. Seamless Process Automation Ltd – Provides fusion splicing, OTDR testing, insertion loss measurement, cable drum testing, and live changeovers. They serve telecom operators, ISPs, and industrial networks across Kenya
