

Lithuanian cable tray support installation price

Article Overview

Cable tray installation in Lithuanian factories typically ranges from \$5 to \$100 per meter, depending on material, tray type, and installation complexity.

Material and Tray Type Impact

- Steel trays are the most common, balancing cost and strength, with prices generally between \$5–\$25 per meter. They are suitable for indoor industrial environments with moderate exposure to moisture or chemicals .
- Aluminum trays are lightweight and corrosion-resistant, ideal for humid or chemically harsh factory settings, costing around \$6–\$30 per meter .
- Fiberglass (FRP) trays offer high durability in aggressive environments, priced \$10–\$50 per meter .
- Stainless steel trays provide maximum corrosion resistance and longevity, often used in heavy-duty manufacturing or chemical plants, with costs ranging \$20–\$100 per meter . Tray design also affects cost: ladder trays are economical and allow easy cable access, while solid bottom trays offer maximum protection for sensitive cables but are more expensive . Wire mesh trays are a cost-effective option for lightweight cabling and quick installation .

Installation and Labor Costs

Installation costs depend on:...
