

Malaysia OPGW Fittings OM4

Article Overview

OPGW fittings in Malaysia, including OM4 fiber-compatible accessories, are available from specialized suppliers like Norden, ZTT, and Global OHL, offering suspension clamps, tension assemblies, vibration dampers, and download clamps compliant with IEC and ANSI standards.

Overview of OPGW Fittings

OPGW (Optical Fiber Ground Wire) fittings are essential components for fiber optic cable installation on transmission lines, providing mechanical support, lightning protection, and secure attachment to towers or poles. OM4 refers to a high-performance multimode fiber standard used in OPGW cables for high-speed data transmission.

Common Types of OPGW Fittings

- **Suspension Assembly (Clamp):** Supports the OPGW cable on towers, reducing mechanical stress and vibration, often reinforced with neoprene inner coverings for durability .
- **Tension Assembly (Clamp):** Used on suspension towers to maintain cable tension, including splicing tension assemblies for towers with joint boxes .
- **Vibration Dampers:** Installed to reduce wind-induced vibrations, protecting both the conductor and the OPGW cable, prolonging system life .
- **Download Clamp:** Secures the fiber optic cable from the tower to the pole, ensuring proper routing and protection .
- **Parallel Groove Clamp (PG Clamp):** Connects two conductors in parallel, commonl...
