

North Asia Smart Power Distribution Cabinet Event

Overview

Organized by Guangzhou Boyou Exhibition Services Co., the expo features product showcases, technical forums, and innovation demonstrations, aiming to promote the green, low-carbon transformation of the power industry and advance digital and energy storage technology adoption. 9th Asia Electric Power, Electrical and Digital Grid Expo and Asia New Power System and Energy Storage Expo will be held from July 16 to 18, 2026 at the China Import and Export Fair Complex, Guangzhou. The event covers power generation equipment, smart transmission and distribution devices, digital. The Regional Road Map on Power System Connectivity, facilitated under the work of ESCAP on energy connectivity, provides countries in the Asia-Pacific region with a possible framework for moving towards a more interconnected grid that offers a more reliable, affordable and sustainable electricity. The Regional Road Map on Power System Connectivity¹, facilitated under the work of ESCAP on energy connectivity, provides countries in the Asia-Pacific region with a possible framework for moving towards a more interconnected grid that offers a more reliable, affordable and sustainable electricity. Effective 31 December 2025, you can access the full collection of peer-reviewed papers presented at the conference. View Here Attend this Premier Event of the IEEE with the World's Leaders. Welcome!
