

Offshore Price OPGW Fittings Single Mold

Article Overview

Offshore OPGW single mold fittings are specialized hardware for optical fiber overhead ground wires, with prices varying based on material, standards, and supplier, typically ranging from RMB 10,000 to RMB 30,000 per kilometer for associated OPGW cables.

Overview of OPGW Fittings

OPGW fittings, also called OPGW hardware or accessories, are designed for use in the construction and maintenance of optical fiber composite overhead ground wires. Single mold fittings are typically used to secure, clamp, or support OPGW cables in transmission and distribution networks, ensuring mechanical stability and electrical safety. These fittings are manufactured to comply with international standards such as IEC, ASTM, BS, DIN, and ISO, ensuring durability and performance in harsh offshore or high-voltage environments (Global OHL & Commodity Solutions) .

Key Features

- **Material Composition:** Often made from aluminum, aluminum-clad steel, or stainless steel to provide tensile strength and corrosion resistance suitable for offshore conditions .
- **Design:** Single mold fittings are pre-formed to match the cable profile, reducing installation complexity and ensuring uniform load distribution.
- **Applications:** Used in high-voltage transmission lines (35 kV and above), providing grounding, lightning protection, and support for optical fibers .
- **Standards Compliance:** Designed according to IEC and ANSI standards, ensuring c...
