

Poland Energy Big Data Center

Overview

Known as the Baltic Data Center Campus, the 3. 2GW facility will be the largest of its kind in Poland and one of the biggest in Eastern Europe. Poland is the undisputed regional leader, and its advantage over. In a conversation with datacenterHawk at Gateway Poland 2026 in Warsaw, Piotr Kowalski, President of the Polish Data Center Association, laid out the data behind a market that has tripled in capacity since 2020 and is now attracting gigawatt-scale development interest. Poland's data center capacity. European renewable energy developer WBS Power has announced plans for a new gigawatt-scale data center outside the village of Choczewo, in Poland's Pomeranian Voivodeship.
