

Price list for aluminum cable tray profiles

Article Overview

Aluminum cable tray profiles typically range from \$10 to \$50 per meter, depending on size, alloy, and customization.

Price Range and Factors

The cost of aluminum cable tray profiles varies widely based on material grade, dimensions, and design complexity. Standard straight ladder trays or solid trays generally start around \$10-\$20 per meter for basic 6061 aluminum profiles, while larger or heavy-duty profiles with bends, T-junctions, or custom fabrication can reach \$40-\$50 per meter or more . Retail platforms like eBay and Alibaba offer a range of options, with prices influenced by brand, shipping, and bulk order discounts .

Material and Alloy Considerations

- **6061 Aluminum Alloy:** Commonly used for solid cable trays, offering good corrosion resistance and machinability, suitable for industrial and commercial applications .
- **Corrosion Resistance:** Aluminum's natural resistance to rust and environmental degradation makes it more expensive than basic steel trays but reduces long-term maintenance costs .
- **Customization:** Profiles with specific bends, perforations, or integrated supports may increase the price due to additional fabrication and tooling requirements .

Market Trends

The global aluminum cable tray market is growing, driven by demand in industrial,...
