

Price of Double-Layer Cable Trays in Vertical Shafts

Article Overview

Vertical cable trays, including double-layer configurations, start at approximately \$0.95 per unit, with prices varying based on material, size, and customization options.

Pricing Overview

Vertical cable trays designed for industrial or commercial use can be purchased at low starting prices of \$0.95 per unit, according to Alibaba listings . The final cost depends on several factors:

- **Material:** Options include galvanized steel, stainless steel, aluminum, and halogen-free plastics, each affecting durability and price .
- **Size and Load Capacity:** Larger trays or those designed to carry heavier cables typically cost more.
- **Customization:** Double-layer or multi-tiered trays for vertical shafts may require custom fabrication, which can increase the price.

Material and Application Considerations

- **Steel trays:** Offer high strength and load-bearing capacity, suitable for heavy power cables in vertical shafts .
- **Aluminum trays:** Lightweight and corrosion-resistant, ideal for environments with moisture or chemical exposure
