Price of Finished Aluminum Profile Cable Trays

Article Overview

Aluminum cable trays typically cost between $20 and $50 per meter, depending on type, size, finish, and supplier.

Price Range and Factors

The average price for aluminum cable trays ranges from $20 to $50 per meter, with custom or coated trays potentially costing more . Pricing is influenced by several factors:

• Material and Finish: Aluminum is lightweight and corrosion-resistant, making it more expensive than standard steel but cheaper than stainless steel for similar applications . Coatings like powder coating or anodizing can increase durability and cost.
• Tray Type: Ladder trays, perforated trays, and wire mesh trays vary in price. Wire mesh trays are generally cheaper and suitable for lightweight cabling, while ladder trays support heavier loads and cost more .
• Dimensions: Width, depth, and thickness of the tray affect material usage and price. Standard widths range from 4″ to 12″, with depths from 2″ to 6″ .
• Supplier and Bulk Orders: Buying in bulk or negotiating long-term contracts can reduce per-meter costs. OEM or custom orders may increase pricing .
