

Price of Fireproof Cable Tray Hangers

Article Overview

The price of fireproof cable tray hangers varies widely depending on material, fire rating, load capacity, and certifications, typically ranging from \$10 to \$50 per unit for standard sizes.

Factors Affecting Price

Material and Coating: Hangers made from stainless steel or hot-dip galvanized steel for corrosion resistance are more expensive than standard steel options . **Fire Resistance Rating:** Products certified for 1-hour, 2-hour, or higher fire resistance (UL 263, BS 476, ASTM E119) generally cost more due to testing and certification requirements . **Load Capacity:** Hangers designed to support heavier cable loads or dynamic stresses are priced higher because of thicker steel or reinforced designs . **Certifications and Compliance:** UL, ETL, LPCB, CE, and ROHS certifications add to the cost, ensuring compliance with local and international fire safety standards . **Design and Compatibility:** Specialized hangers compatible with ladder, ventilated, or solid-bottom cable trays may have higher prices due to custom fittings or adjustable designs .

Typical Price Range

- Light-duty hangers: \$10-\$20 per unit
 - Medium-duty hangers: \$20-\$35 per unit
 - Heavy-duty or high fire-rated hangers: \$35-\$50+ per unit
- Bulk orders or project-specific customization can affect pricing, and suppliers may offer discounts for large quantities
