

Price of Flip-Type Fiber Optic Adapter

Article Overview

Fiber optic flip adapters, such as SC APC flip-type connectors, typically range from \$5 to \$15 per unit depending on specifications and supplier.

Fiber optic flip adapters are specialized connectors designed for quick and precise interconnection of fiber optic cables. For example, the Baudcom flip-type SC APC optical connector is available on Amazon, offering features like rapid connection, precise core alignment, and durable polymer construction, with prices generally starting around \$5–\$10 per piece depending on quantity and seller . Other suppliers, such as FS Europe and DigiKey, offer a wide range of fiber optic adapters and couplers, including flip-type and standard adapters, with pricing varying based on connector type, material, and environmental resistance . Bulk purchases or industrial-grade adapters may cost more, sometimes reaching \$15 or higher per unit. When purchasing, consider:

- Connector type compatibility (SC, LC, APC, UPC)
- Insertion loss (typically 0.3 dB for high-quality flip adapters)
- Durability and reusability
- Supplier reliability and shipping options For the most accurate and current pricing, check online retailers like Amazon, DigiKey, or FS Europe, as prices fluctuate based on stock, shipping, and regional availability .
