

Price of Ground Cable Trays and Pedals

Article Overview

Ground cable trays typically range from \$50 to \$500 per meter depending on material and duty, while grounding clamps/pedals cost between \$5 and \$50 each.

Cable Tray Pricing

Metal Cable Trays: Light, medium, and heavy-duty steel trays, often pre-galvanized or hot-dipped galvanized, are commonly used for indoor and outdoor installations. Prices vary by width, length, and load capacity. For example, a 1-meter medium-duty galvanized steel tray can cost around \$50–\$150, while heavy-duty or XL trays may reach \$300–\$500 per meter. Accessories like couplers, bends, and lids are sold separately and typically range from \$10–\$50 per piece.

GRP/FRP Cable Trays: Glass-reinforced plastic trays are lightweight, corrosion-resistant, and suitable for harsh environments such as marine or chemical facilities. GRP trays are generally more expensive than standard steel trays, with prices ranging from \$100–\$400 per meter, depending on size and load rating.

Grounding Clamps and Pedals

Cable Tray Ground Clamps: These are used to bond cable trays to the grounding system. Standard clamps are priced between \$5 and \$50 each, depending on material (copper, stainless steel, or plated steel) and size.

Pedal-style grounding connectors, which provide a secure connection point for grounding conductors, fall in a similar price range.
