

Price of Standard Level 3 Mobile Distribution Box

Article Overview

A Standard Level 3 Mobile Distribution Box typically costs between \$1,500 and \$4,000, depending on specifications and features.

Price Overview

The cost of a Level 3 mobile distribution box varies based on amperage capacity, voltage rating, number of circuits, material construction, and environmental protection. Heavy-duty units designed for outdoor or industrial use, with weatherproof enclosures (IP65 or higher), impact-resistant housings, and integrated circuit breakers, generally fall in the \$1,500–\$4,000 range. Premium models with advanced monitoring, adjustable breakers, or explosion-proof ratings can exceed this range .

Factors Affecting Price

- **Amperage and Voltage:** Higher capacity boxes (e.g., 200–400A, three-phase) cost more than smaller units (20–100A, single-phase) due to larger components and wiring .
- **Material and Durability:** Steel or reinforced polymer enclosures designed for rugged environments increase cost compared to standard plastic units .
- **Environmental Rating:** Weatherproof or outdoor-rated boxes (NEMA 3R, IP65) are more expensive than indoor-rated units .
- **Additional Features:** Integrated surge protection, adjustable breakers, and smart...
