

Price of flame-retardant cable trays in North Macedonia

Article Overview

Flame-retardant cable trays in North Macedonia typically cost between \$10 and \$50 per meter, depending on material, type, and customization.

Price Range and Factors

The cost of flame-retardant cable trays varies widely based on material, size, and design. Common materials include PVC, fiberglass, stainless steel, and aluminum, with PVC being more affordable and stainless steel or fiberglass costing more due to their specialized fire-resistant properties. Standard steel trays generally range from \$10 to \$30 per meter, while aluminum or coated trays can reach \$20 to \$50 per meter. Custom designs, dividers, covers, or additional fireproofing features can further increase the price.

Local Market Context

In North Macedonia, cable trays are considered cost-effective and durable, with minimal maintenance requirements. Local suppliers, such as Jeetmull Jaichandlall, provide competitive pricing and can offer bulk discounts or project-based quotes. Importing specialized flame-retardant trays may slightly increase costs due to shipping and customs, especially for high-grade materials like stainless steel or fiberglass.
