

Price of installing an elevator distribution box

Article Overview

The cost of installing an elevator distribution box typically ranges from \$1,500 to \$5,000 or more, depending on specifications, building requirements, and installation complexity.

Equipment Cost

Elevator distribution boxes are specialized electrical enclosures that manage power and lighting for elevator systems. Prices vary based on voltage rating, amperage capacity, number of circuits, material, and integrated safety features. Standard residential or small commercial units may cost \$500-\$1,500, while larger commercial or industrial-grade boxes with advanced monitoring, remote control, or weather-resistant features can range from \$2,000 to \$5,000 or higher .

Installation Cost

Installation involves connecting the distribution box to the building's electrical system, ensuring compliance with local electrical codes, and integrating it with the elevator control system. Labor costs depend on site accessibility, wiring complexity, and whether retrofitting is required. For a typical commercial or residential elevator, installation labor can add \$1,000-\$3,000 to the total cost .
