

Price of residential wall-mounted distribution boxes

Article Overview

Residential wall-mounted distribution boxes typically cost between \$10 and \$200, depending on size, material, features, and installation requirements.

Typical Price Ranges

- Basic plastic wall boxes: \$1–\$10 per unit for simple enclosures suitable for small residential circuits, offering basic protection and easy installation .
- Standard residential distribution boxes: \$50–\$150, often made of ABS or thermoplastic, with IP54–IP65 protection, pre-wired options, and space for multiple circuits .
- Modular or expandable boxes: \$100–\$200, such as Panasonic 16- or 32-module units, offering horizontal/vertical expandability, flush or surface mounting, and enhanced safety features .
- Metal or high-durability boxes: \$150–\$250, typically stainless steel or aluminium, suitable for outdoor or high-risk environments, often with lockable doors and higher IP ratings .

Factors Affecting Cost

- Material: Plastic is cheaper, while metal or flame-retardant materials increase durability and price .
- Size and Capacity: Larger boxes with more modules or circuits cost more .
- Protection Rating: Higher IP ratings (IP65–IP67) for water and dust resistance increase cost, especially for outdoor installations
