

Price per unit of double-sheathed outdoor optical cable

Article Overview

The price of double-sheathed outdoor optical cables typically ranges from \$0.50 to \$5 per meter, depending on fiber count, type, and protective features.

Overview of Pricing

Double-sheathed outdoor optical cables, such as armored or dual-jacketed fiber optic cables, are designed for harsh outdoor conditions, including direct burial, duct installation, and long-distance transmission . Prices vary widely based on:

- Fiber type: Singlemode (OS2) cables are generally more expensive than multimode due to lower attenuation and higher bandwidth .
- Fiber count: Cables with higher core counts (e.g., 48-core GYTY53) cost more per meter than lower-count cables .
- Sheathing and armor: Steel tape armor, dual PE jackets, and water-blocking materials increase durability and cost .
- Length and supplier: Bulk orders often reduce per-meter cost, while small quantities or specialty cables may be priced higher .

Typical Price Range

- Low-end outdoor fiber cables (basic dual-jacketed, 4-12 fibers, multimode): approximately \$0.50-\$1.50 per meter .
- Mid-range cables (singlemode, 12-24 fibers, armored or double-jacketed): approxi...
