

Prices of Color Steel Cable Trays and Galvanized Cable Trays

Article Overview

The price of galvanized steel cable trays ranges from approximately \$2 to \$25 per meter, depending on material, coating, size, and supplier.

Pricing Overview

The cost of color steel galvanized cable trays varies based on several factors, including the type of steel, thickness, surface finish, and tray configuration. Galvanized steel is the most common material, offering a balance of durability and affordability, while stainless steel or aluminum options are more expensive due to corrosion resistance and lightweight properties. Color-coated trays, often powder-coated over galvanized steel, provide additional protection and aesthetic appeal, which can slightly increase the price compared to standard galvanized finishes. Typical price ranges per meter are:

- Basic galvanized steel trays: \$2-\$10 per meter
- Powder-coated or color-finished galvanized trays: \$8-\$25 per meter, depending on thickness, size, and supplier
- Wire mesh or perforated trays: Generally lower cost, suitable for lightweight cabling

Factors Affecting Price

- Material and Coating: Hot-dipped galvanized (HDG) trays are more durable and costlier than pre-galvanized trays. Powder coating or color finishes add to the price...
