

Primary Distribution Box 2504

Article Overview

The Primary Distribution Box 2504 is an electrical enclosure designed to distribute power from primary sources to multiple electrical or electronic components, available as Siemens 5ST2504 or NSN 6110-01-472-2504.

Overview

The Primary Distribution Box 2504 serves as a centralized power distribution unit, typically used in industrial, military, or aerospace applications. It is designed to distribute electrical power from one or more primary sources, such as generators or batteries, to multiple electrical or electronic devices, ensuring organized and safe power management .

Siemens 5ST2504

- Type: Power distribution block
- Poles: 1-pole
- Current Rating: 80 A
- Voltage Rating: 600 V
- Applications: Industrial electrical panels, machinery, and control systems
- Features: Compact design for mounting in distribution boards, facilitates connection of multiple circuits, and ensures reliable current distribution .

NSN 6110-01-472-2504

- Type: AC Box Assembly / Distribution Box...
